Giving Props!
We Thank Our Team
For Their Altruism!

Dr. Luis Macias regularly supports HOMEBOY INDUSTRIES where he volunteers his time to laser off unwanted tattoos from reformed gang members. **Dr. Macias** is also an active mentor of college students through the UCLA Alumni Association and MiMENTOR.ORG.

Dr. Michelle Spring routinely works with RESURGE as part of a surgical team that provides free reconstructive plastic surgery for children and adults with cleft palates, cleft lips, burns and hand deformities.

Dr. Grant Stevens is a major supporter of CHANGE 500 via RESURGE (a nonprofit organization that provides reconstructive surgery in 13 countries to babies born with cleft palette). His generosity and commitment will change 40 lives this year alone.

Carla Crespo, PA-C has collaborated with the PASSION TO HEAL PROGRAM in developing comprehensive programs to diagnos and treat skin conditions through medical volunteer trips in the rural communities of Kenya, India, and Ecuador.

Because of her love and commitment to animals, **Cory Felber, PA-C** volunteers with various dog rescue organizations.

Dr. Stevens also received the 2014 Humanitarian Award for his support with the JUST LIKE MY CHILD FOUNDATION. His commitment has helped save the lives of more than 5,000 mothers in Africa who would have otherwise died in childbirth, and to rebuild a small clinic in rural Uganda into a nationally recognized teaching hospital.

Happy from head to toe!

We all share a desire to remain youthfull for as long as possible. Looking wonderful is an instant uplift to your day. We promise to bring out the very best in you, naturally, and make you look as good as you feel, from head to toe!

Patient Population Matures

70 is the new 50, and there is nothing stopping today's active seniors from looking as young as they feel and act. It is increasingly common for men and women in their 60s and 70s to seek out the expertise of plastic surgeons to maintain a youthful appearance. In addition, as less invasive techniques continue to evolve, coupled with people living better and longer, there is really no maximum age for cosmetic procedures.

Selfies Remain a Driving Force

The selfie trend shows no sign of slowing down in 2015. Growing numbers of teens to seniors are seeing themselves all over social media, and they are more cognizant of their appearance on these networks. Therefore, we have seen an increase in requests for rhinoplasty, eyelid rejuvenation, neck contouring and other facial plastic surgery procedures based on these images and the social media era.

FOREVER YOUNG

More men are seeking plastic surgery as a way to stay competitive in the job market. Males often feel more confident in the boardroom and at home, when they look better. We all have our own mindsets when it comes to aging, yet we all share a desire to remain youthful for as long as possible. Often, men feel they wear their resume on their face, and opt for surgery to remain competitive in the business world...and it doesn't hurt their love life either!
