Yes No

**Insurance:**

Some nasal surgery is covered in part or in full by health insurance policies. Most cover functional reconstructive improvements, but do not cover cosmetic surgery. The insurance companies require a written report from our office before making a determination of benefits. This report will contain information you have provided on this form and the results of your examination. Polaroid photographs will also be taken and sent to your insurance company. It is entirely your choice if you would like us to prepare such a written report along with your photographs for pre-determination by your insurance company. Your insurance company will be billed for the report and the functional portion of your examination.

Do you wish this office to prepare an insurance determination report for payment of your nasal surgery? Yes No

Do we have your permission to send photographs of your nose to the insurance company? Yes No
