**PLASTIC SURGERY CAN CHANGE THE WAY PEOPLE PERCEIVE YOUR PERSONALITY!**  
A study published in April of 2015 (*JAMA Facial Plastic Surgery*) found that women who underwent facial rejuvenation surgery were perceived to be not only more attractive but also more likeable than they were before the surgery. Why? The surgeries caused the women's resting facial expressions to appear happier, which in turn led people to believe that they were more likeable.

Tired of the expense and hassle with body shaping garments? The Brazilian Butt Lift is a buttock augmentation using implants or your own fat to create more prominent, perky buttocks. Where a man can feel good about looking GREAT!

Men often feel more confident in the boardroom and in the bedroom, when they look better. We all have our own mindsets when it comes to aging, yet we all share a desire to remain youthful for as long as possible. Often, men feel they wear their resume on their face, and opt for surgery to remain competitive in the business world...and it doesn't hurt their love life either!

## MicroPen Needling- Don't Be Afraid!

Micro-Needling is THE Perfect Anti-Aging Treatment for all ages and skin types. It is not uncomfortable and in fact, is actually gentler to the skin than laser resurfacing. Needling increases production of collagen and elastin which leads to smoother, fresher, younger-looking skin. Try it today, before your ship has sailed!
